

Planning for Hybrid Schedule at MSA:

- 1) Students without access to a device or internet, need to inform Suzanne.hirsch@msabrookhaven.org by July 27.
- 2) Students whose family prefer virtual fully for the first nine weeks, need to contact debra.henderson@msabrookhaven.org by July 27. We will take these requests one nine weeks at a time with intention of returning to campus as soon as possible.
- 3) When moving into the Student Life Center by your appointed times, please only bring what is needed for the time you will be staying (1-2 weeks of clothes). A refrigerator is permitted from day one if you feel it is necessary, but do not leave food items that will perish while you are gone.
- 4) Please take your bedding, and clothes home when you leave for your two weeks of virtual learning for washing. Students while rotating can sleep on the bottom bunk until roommates are sharing a room again – then students will need to work together on bed assignments.
- 5) When you go home, do not leave valuable items in your room. **Pack each time you come to campus like you are going to camp.** If the governor shuts us down, we won't have to organize a massive move out day.
- 6) You can leave your shower toiletries/cleaning/paper supplies, but store them if you don't want to share them with roommates while you're gone.
- 7) Train riders should be thoughtful about bringing items that can be packed into their bag to return home.
- 8) Students need to bring their computers, notebooks, and textbooks as necessary home with them while doing virtual learning.
- 9) Students will need masks while at MSA. Students will receive two masks from MSA, but should plan to bring additional ones. Students should wash their masks and not wear the same one every day.
- 10) Room and Board payments will be half (\$125) for the first quarter because students are on campus half of the nine weeks. If the schedule continues, we will continue to pro-rate costs appropriately. Please plan to pay your invoices prior to move in online or by mail to avoid lines at move in. Students who have hardship applications filed will be reviewed weekly. All students will need to pay their student services and technology fees or have arrangements made for payment by move in.
- 11) Physicals are required for all students.
- 12) Cleaning supplies should have disinfecting properties. Please work with your suitemates to identify any sensitivities to specific types of cleaning supplies/smells, etc. Bleach can be toxic if mixed with other cleaners. Please avoid mixing cleaning supplies as you clean your rooms/bathrooms.
- 13) **Please be patient with us on move in day.** Please only bring one family member to help you move into the building. We have one person per hour per floor. With smaller amounts of items to bring, it should be reasonable to finish faster than usual. Elevators cannot be crowded with people and we will need to keep social distancing. Masks are required while in hallways, elevators, and on the main floors.
- 14) If any junior still needs a tour, we can do that upon request individually. Please email requests to admissions@msabrookhaven.org.
